Subject DATES TO DISCUSS OAZ SOW AND WP

Gary, I talked to Tiffany about the dates you offered. She said 4/29 is possible and 5/5 will work. She's unavailable from 5/6 through 5/13.

As I discussed with you earlier, I'll not likely make many decisions during the meeting/call on the proposed contents of the WP, especially on very specific items that may be proposed, such as the number and location of sampling points. I'd need to discuss this type of info with CH2M Hill and/or any other reviewers I may involve before making a decision. However, I should be able to tell you by the end of the meeting/call whether I think you're moving in the right direction.
